PHP open_basedir - (OFF)
CURL extension - (Yes)
GD complied with your PHP Build - (Yes)

Install Checklist

1. Create a new MySQL database with new user that has full rights to it.
2. Upload iScripts EasySnaps files.
3. Run install script.
4. Delete install directory.
5. Customize as desired.
6. Test.
7. Go Live!

Installation

Create Database

Create a new MySQL database and new user with full rights to the database. Check with your server's control panel documentation for details on how to create databases on your system.

Upload files

Unzip the iScripts EasySnaps full install zip file with paths in your computer. Upload all files maintaining the directory structure.

OR

Upload the iScripts EasySnaps full install zip file and unzip on your server. If you do this, be sure your files are owned by the user who owns the site.

Run the install script

Open a new browser window. Surf to [http://\[your_ iScripts EasySnaps_ domain\]/install/install.php](http://[your_ iScripts EasySnaps_ domain]/install/install.php) (Substitute your domain name for [your_ iScripts EasySnaps_ domain])

Step 1:

The first screen contains 4 sections

1. Database Details section
2. Site Details section
3. Display & Image Settings section
4. Administration Details section

Database Details section

This section displays the following fields to fill

- a. Database Server Hostname – enter the hostname of your database server.
- b. Database Name – name of your database.
- c. Database User Name – database username.
- d. Database Password – database password.
- e. Database Prefix – specify a name as table prefix.

Site Details section

Enter the name of the site corresponding to the field ' Site Name '

Site URL – specify the site url

Display & Image Settings section

Site Logo - Browse the site logo

Watermark Image (Small) – browse the small watermark image

Watermark Image (Big) - browse the big watermark image

Administration Details section

Site administration details are recorded in this section. It displays the following fields

- a. Admin Login Name – administrator login name
- b. Admin Password – administrator password
- c. Confirm Admin Password – confirm the administrator password by reentering here
- d. Admin Email – email address of the administrator

Step 2:

If the installation is successful you will get the following message

“Congratulations! The Installation Process is completed successfully! ”

iScripts EasySnaps installation is complete!

Remove or rename and relocate the install directory. This is a security measure, you don't want anyone surfing to it.
